

# HFFBC "Family Flex" Worship Space

## **What is the "Family Flex" worship space?**

Join us in the upstairs **Chapel** starting Sunday, September 13, 2020 in our new "Family Flex" worship space! Offered during both the **8:30am and 10:45am** as a flexible worship space option, this open for ANYONE, but particularly for families with young children. We pray this will be a blessing to you and your family!

## **What will worship be like?**

Worship will consist of a live, in-person worship leader/guide who will be a personal and relational presence in the space for worshippers. That person will do a welcome and announcements time and guide the participants in worship throughout the morning (inviting worshippers to stand and sing, to pray at appropriate times, to read the Scriptures, etc.). The singing, Scripture readings, and Sermon will be viewed through the screen via a live simulcast. It will be the exact same worship content (Scriptures, songs, and sermon) as in the main sanctuary. It will be, therefore, a blend of live and in-person worship and participation in worship through the simulcast on the screen.

## **Will there be a Children's Story? What about a Children's bulletin and activity bag?**

Yes, it will be the same story that is being read in the sanctuary, and the same children's bulletin and activity bag will be given out. But the story will be read live and in-person by the worship leader/guide.

## **What are the advantages to using this space for families?**

It will be naturally more informal (there is more "wiggle room" space and a general understanding that kids make some noise), bathrooms are closer by, and there is deep encouragement by worshipping alongside other families in your similar life season. Also, adults can bring their own coffee :)

## **Can others come (singles, couples, grandparents, etc.)?**

Of course! This is not *restricted* to just families, but is designed with them in mind. But any and all are welcome.

## **What are the health guidelines in this space?**

Same as in the sanctuary. Masks required as you come and go, and when you sing, but can be removed when you're social distanced. Social distance will be maintained between families.
